American Holly (Ilex Opaca)

We think there is nothing prettier than our native American Holly, especially when it is full of bright red berries, although its bright glossy foliage is beautiful all the year around. These Hollies are grown from seeds and cuttings.

THIS IS AMERICAN HOLLY

We have about 50, the sizes from 4 to 10 ft. high with the same spread. Nursery grown Hollies 3 to 5 ft. high, 1½ to 2 ft. spread.

BOXWOOD NURSERIES
MILTON, DELAWARE

To those who love Old English Boxwood:

To the man or woman who has stepped out in a veranda after a rain and has caught that delicate, indescribable fragrance of Old English Boxwood--to those who have seen how perfectly this charming old shrub adapts itself to any setting--the following news will be of particular interest.

Despite the rising prices of almost everything, we are offering this beautiful Boxwood at more attractive prices than ever for the coming planting season.

Every formation and all sizes of this rare shrub are among this wonderful collection--hedges, matched pairs, foundation plantings, beautiful shaped specimen--all of healthy, heavy, luxuriant foliage.

A great many types are illustrated here. Select the particular type which is suitable for your garden and write giving us the size and shape you wish. You will find our prices surprisingly reasonable, besides, you know, we guarantee all our Boxwood to live and thrive.

We extend to you a cordial invitation to visit the Nursery--to see the largest collection of fine Boxwood in America. By motor--south from Wilmington over the famous duPont Boulevard, through one of the oldest and most interesting sections of Colonial America.

YEW - TAXUS

The Yew in its several species and shapes can well be used in any place where an evergreen will do well. Ideal for planting where small or medium size evergreens are desired. The foliage is dark green, of fine texture and not affected by cold or heat. It is the next best thing to Boxwood. These Yews have been heavily pruned and are dense plants of the finest quality.

TAXUS BACCATA REPANDENS

(Spreading English Yew)

A flat-growing, dark green Yew. Good for foundation, rockery and hedge plantings.

15-18 inches	\$2.00
18-24 "	2.75
24-30 "	3.50
30-36 "	5.00

TAXUS MEDIA HICKS

(Hicks Yew)

A narrow form used in formal and hedge planting. Rich dark green and compact to the ground. It stands severe cutting backing.

12-18 inches	\$1.75
18-24 "	2.50
24-30 "	3.25
30-36 "	4.00
36-42 "	5.50

TAXUS CUSPITATA

(Japanese Spreading Yew)

A spreading Yew, bearing beautiful red berries in Fall. Responds well to shearing, yet is attractive when allowed to develop naturally. Excellent for hedges, borders and foundation plantings. Does fairly well in shade.

15-18 inches	\$1.75
18-24 "	2.50
24-30 "	3.00
30-36 "	4.00
36-48 "	5.00

TAXUS CUSPIDATA CAPITATA

(Upright Japanese Yew)

Handsome pyramidal tree. Its dark green foliage is covered with red berries in the Fall. Fine for formal plantings, hedges or as specimens.

15-18 inches	\$1.50
18-24 "	2.00
24-36 "	2.50
36-48 "	3.00
48-60 "	7.50
